Would you agree to a home inspection?

Some animals in need of fostering have medical conditions that need attention, are you comfortable giving medications?

Some animals in need of fostering are very young and too small to be spayed/neutered. These animals will need to be brought into the shelter every 2 weeks for vaccinations and weight checks. All other animals will need to come to the shelter for vet appointments, which we will discuss on a case by case basis. Will you agree to bring the animal(s) in for this ongoing care?
